Business Communication Skills

Introduction

Introduction

As the world has transformed phenomenally from physical to digital, it behooves individuals across industries and skillets to become acquainted with, if not excel in global communication for business.

At Xcelerate Training Institute, we are privileged to empower our participants with this much sought-after skill of Business Communication. The art of being able to merge data with a story, statistics with a conversation and reports with long-lasting customer loyalty is all rooted in effective business communication.

Professionalism in communication stems from assertiveness in behavior, and therefore this seemingly understandable skill is far deeper rooted than it might appear. The success of business communication lies in an individual’s ability to fully imbibe the responsibility of their representation in the global scheme of things.

The first source of our training is in evolving the mind-set of an individual. The business of the 21st century is one that appreciates and rewards authentic and positive relationships established through well-structured communication.

This can happen only when target audiences are well researched. Therefore, we at Xcelerate Training Institute take special care in making sure that our delegates learn methods to fully understand the nature of the audience that they will be catering to before communication is designed, be it formal or informal.

Our highly experienced and proficient facilitators will provide personalized and real-time feedback to each participant, assisting a meaningful growth in their ability to communicate better.

Our Business Communication Skills Training Course has helped several executives, managers, government employees and business owners hone a paradigm shift in their mindset, thus breaking a redundant communication pattern.

Our post-training analysis records a display of positive business communication in all our participants, empowering them to embrace a greater level of success every day.

This Xcelerate training course will thus empower you to become a highly positive and professional communicator. Through this course, you will be able to apply advanced communication techniques and also role-model this ability to mentor others in your team by virtue of your own example.

positioned to contribute tangibly to the growth of your organization in national and global markets, both on a physical and virtual platform.

Learning Objectives

The main objective of this Business Communication Skills Training Course is to empower professionals with—

- the ability to reach a higher level of competence in business communication
- real-time feedback on their communication aligned with business interaction in 21st century
- the ability to recognize language and vocal aspects that do not align with professional parameters of communication
- capability to rectify these errors and self-improvise continuously
- understanding of the requisites of a positive and collaborative communicator representing a brand in the global market
- ability to present ideas assertively and confidently on any subject
- the skill to build rapport, initiate conversations, offer feedback, respond to criticism and compliment people in a positive way
- understanding of the potential of great listening, questioning and acknowledging the other at all times

Training Methodology

Xcelerate Training Institute Solutions designs training courses to accommodate to our training audience and their distinctive professional background and experience. Classroom sessions with presentations by an approvingly experienced facilitator form a major part of our training programs.

We boost participant involvement through group discussions, role-plays, group activities, assessments and more. Participants are also requested to share their experiences, problems, apprehensions and best practices from their respective organizations, which are facilitated by the trainer to enhance learning for the entire participant group.

Xcelerate Training Institute Solutions follows the Do–Review–Learn–Apply Model.
