Business Process Improvement Training Course

Introduction

Introduction

Do you think your organization needs to redesign its business processes to achieve improvements in your company's business performance?

Business Process Improvement (BPI) is a structured approach which helps the corporates to redesign their existing business operations. The focus on efficient operations and customer focus aids the companies in improving productivity. It also helps to reduce the cost of operations and cycle time, enhance customer service and the quality of the products or services of the organization.

This course on Business Process Improvement by Xcelerate Training Institute Solutions will empower you to drive business productivity. This will also help you add more value to your clients, accelerate the processes and focus only on what matters.

Learning Objectives

- Have an in-depth understanding of BPI
- Understand and apply BPI framework in your organization
- Identify processes that need improvement
- Understand how to create engagement with the stakeholders
- Understand the skills required by the organization to undertake this initiative
- Understand how to bring about change in the business processes for competitiveness in the marketplace
- Understand how BPI can help in client satisfaction, client retention, and in turn increase market share and profitability for the business
- Identify KPIs linked to operational excellence, effective customer service and reduction in cycle time

Training Methodology

We at Xcelerate Training Institute Solutions, offer a highly interactive and high energy program. The presentation will be complemented by the inclusion of several management games, paper-pencil exercises, activities, role plays, videos, and robust practice sessions. The best-practices shared, and the presence of other industry participants will empower you to develop process improvement skills of your enterprise.

Benefit For Your Organization

- Increase the visibility, credibility, and brand value of the organization in the marketplace
- A more customer-centric-approach at the root level will lead to happy and satisfied customers
- Increase in market share and profits
- Enhancement in Quality
- Reduction in cycle-time

- New innovative ideas will bring about significant changes in the performance of individuals
- Have trained and experienced professionals to drive business productivity

Benefits For You

Participants undertaking this Business Process Improvement Course will derive the following benefits:

- Increased learning in terms of knowledge and information to drive this initiative
