Dynamics 365 Administration Training Course

Introduction

This course by Xcelerate Training Institutes provides comprehensive training on the installation, configuration, maintenance, and support of Microsoft Dynamics 365. Participants will gain proficiency in managing users, security, services, workflows, analytics, reporting, enterprise portals, and overall system administration.

Learning Objectives

Upon completion, participants will be able to:

- Install and configure Microsoft Dynamics 365 components (client, database, AOS)
- Establish necessary service accounts
- Fine-tune system parameters
- Synchronize database and initialize the system
- Implement robust user security measures
- Define analysis services roles
- Configure web services
- Design and execute workflows
- Install and configure Microsoft Dynamics 365 BI components
- Utilize Windows PowerShell for report deployment
- Install and configure Enterprise Portal
- Define and configure Enterprise Portal parameters
- Administer Microsoft Dynamics 365 effectively

Training Methodology

This course by Xcelerate Training Institutes should incorporate a blended learning approach, combining instructor-led sessions with self-paced e-learning modules. Instructor-led sessions would cover core administration concepts, hands-on exercises, and group discussions, while e-learning modules would provide learners with access to recorded sessions, supplementary materials, and interactive quizzes for reinforcement. Personalized learning paths should be tailored to individual needs and experience levels, ensuring that learners acquire the necessary skills and knowledge efficiently. Regular assessments and feedback mechanisms would be implemented to track progress, identify knowledge gaps, and provide targeted support.

Benefits for Your Organisation

This course empowers your organization by equipping administrators with the knowledge and skills to effectively manage and optimize your Dynamics 365 environment. This training will enhance system performance, improve user experience, and minimize downtime, ultimately driving productivity and business success.

Benefits for You

This course empowers you to effectively manage and optimize your Dynamics 365 environment, enhancing productivity and efficiency. By mastering environment management, user provisioning, security configurations, and data management, you'll streamline operations, ensure data security, and optimize resource utilization, ultimately driving business success.

Who Should Attend

This program is tailored for Engineers, Senior Supervisors, Systems/Applications Specialists, Administrators, and new Managers identified by AECL.

Course Outline

Foundation

- Course Overview and Planning
- System Installation
- User and Security Management

Core Functionalities

- Service Configuration
- Workflow Implementation
- Data Analysis

Advanced Topics

- Report Generation
- Enterprise Portal Deployment
- System Administration
- Organizational Model
