HR Audit Training Course

Introduction

Introduction

HR Audit is a diagnostic tool that helps to gauge the current status of effective HR practices and the gaps between current and future needs i.e. the desired state of the aspect being audited. The audit is quite routine and compulsory for Finance as a function since it is statutory compliance however, for HR it is not a mandatory procedure since there is no legal obligation. Nevertheless, it is imperative that human resource audit must be performed periodically to keep the policies and procedures relevant.

A well run and managed human resources audit can help reduce employee turnover, disengagement, and friction. It can also be an enabler of maintaining high morale providing a competitive edge. Audit facilitates smooth and efficient operations of the Human Resource department in the best of its capacity.

Human Resources audit is a comprehensive method of objective and systematic verification of all HR practices in the organization. A deliberate effort to look at human resources (people) and procedures that keep and help them flourish in the system.

It goes beyond hiring and deep dives into every aspect like motivation, compensation and benefits, training and development, budgeting, grievance redresses; absolutely any process or practices that affect the people element of the business.

This Xcelerate training course will empower you in establishing varied objectives like ensuring legal compliance, documentation, policies, and procedures prevalent in the HR domain, thereby qualifying its effectiveness. It helps identify the gaps in the HR processes and scope of improvement.
